Lindsay told me it could be held until MSR departure depending on Ukraine coverage.

Sure, but can you and your team keep it close until public rollout which I think is planned for later this week. Thanks Monica.

This sounds like a super agenda. Is it OK for me to share with a few people on my team so we can be prepared to amplify? Thanks for sharing, Jane!

Subject: EPA International Priorities

Monica,

As I mentioned to you in our last call, Administrator Regan will be co-chairing the OECD Environmental Policy Committee meeting in Paris on March 30-31. In the lead up to this meeting, we will be announcing EPA's International Priorities which will highlight some of the Administration's priorities and build on EPA's long history of international collaboration. These priorities will include the following five broad thematic areas:

1. Combatting the Climate Crisis
2. Advancing the Values of Environmental Justice and Equity
3. Addressing Transboundary Pollution in North America and Globally
4. Building Back Better Through Investments in Environmental Infrastructure, Green Economy and Green Jobs
5. Advancing Strong Environmental Governance by Deploying EPA Expertise and Innovation

We are planning a public roll-out of EPA's International Priorities and I have asked my Chief of Staff, Martin Dieu, to share our press materials with your staff once this announcement is made. If you have any questions, please let me know.

Best regards,

Jane
